INVESTMENT OBJECTIVE

The Fund seeks to outperform (net of fees) the FTSE All-Share (NDTR) Index ("FTSE Index") over the long-term (over 5 year rolling periods). To achieve this objective, the Fund will invest at least 80% of its assets, directly or indirectly, in equities relating to companies that either have their registered office in the UK; carry out a predominant proportion of their business activity in the UK market; and/or are listed on a UK stock exchange. The Investment Adviser seeks to identify companies trading below the Investment Adviser's estimation of the value of their tangible assets (physical and measurable assets that are used in a company's operations such as property, plant, and equipment) or their replacement cost, or whose profit streams (which focuses on the cash generated for shareholders) the Investment Adviser considers to be undervalued.
